## Skills

- **Technical Skills**
  - **Programming Languages:** Java, JavaScript, C++
  - **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Next.js, TypeScript
  - **Database Management:** MongoDB, MySQL
  - **Tools:** Git, GitHub, Firebase, Netlify, Vercel
  - **Frameworks & Libraries:** Express.js, Tailwind CSS, Socket.io
  - **Other Skills:** Prompting skills in ChatGPT, Google Analytics API, Firebase Authentication, JWT tokens
- **Soft Skills:**
  - Teamwork, collaboration, leadership

## Experience

- **AI/SaaS Testing Intern - ProactAI** Sep 2024 - Dec 2024
  - Contributed to improving Proact Bhaskara, an AI-driven model focused on enhancing SaaS platform capabilities.
  - Worked on refining the model's performance by optimizing data processing and automation algorithms.
  - Assisted in integrating AI functionalities to improve client performance metrics and operational efficiency.

## Education

- **Navy Children School, Visakhapatnam** 2021
  - Intermediate, Percentage: 90.8%
- **B.M.S College of Engineering, Bangalore** 2022-26
  - Bachelor of Engineering, Information Science Engineering
  - CGPA: 9.21

## Projects

- **Pokedex Project** 🔗 🌐

HTML, SCSS, TypeScript, React.js, Next.js, Firebase, APIs.

  - Developed a Pokedex application with Google authentication and a 'My List' feature.
  - Implemented multiple pages for Pokémon management and comparisons.
  - Utilized Next.js for performance optimization and seamless navigation.
- **AI Calculator** 🔗

HTML, SCSS, TypeScript, React.js, Python (Fast API), Axios, Gemini API, Uvicorn.

  - Developed an AI calculator capable of interpreting handwritten mathematical expressions.
  - Integrated LaTeX rendering for clear expression and result display on a canvas.
  - Utilized Fast API for backend operations and real-time calculations.

## Certifications

- **Prompt Engineering for ChatGPT** Certificate
  - Completed a course focused on mastering prompting techniques to effectively interact and generate responses from ChatGPT.
